

## **INTRODUCING THE GIDI TRIBE**

**Lagos, Nigeria –9<sup>th</sup> January 2018** – The 5<sup>th</sup> annual Gidi Culture Fest is set to hold in Lagos over Easter weekend.

The 2018 edition of the festival, the marquee **5<sup>th</sup> year**, will bring with it changes and additions as well as a theme that celebrates the African youth, all to bring another unforgettable festival experience to Lagos.

This year we introduce the **Gidi Tribe**. An evolution of the identity that has found a home in Gidi Fest. The Tribe represents the new African generation that refuses to be defeated or defined by their circumstances. It's an emergence of young, determined individuals coming together to break down boundaries, who refuse to take no for an answer and rewrite the status quo.

The Tribe is Gidi and Gidi is the Tribe!
